

Beyond Codes: Vertical Openings/Atria and Means of Egress

FRIDAY, OCTOBER 16, 2015 | SEATTLE CITY HALL, BERTHA KNIGHT LANDES ROOM

** all sessions/speakers subject to change*

The last of the 2015 Beyond Codes Series is geared towards architects and designers wanting to get a better understanding of code requirements for protection of floor openings in buildings. This class will clarify the applicable code requirements, including the advantages and disadvantages of each strategy using real-life project examples. Speakers will also cover best practices for coordination within your project team and sub-consultants from the architect/project manager perspective, as well as maintenance and other considerations for the owner's perspective.

8.00-8.30am **REGISTRATION + MORNING REFRESHMENTS**
