AIA SEATTLE
HAPPY HOUR SERIES

INTERACTION

PRESENTED BY YOUNG ARCHITECTS FORUM + WOMEN IN DESIGN

C A L L   F O R   H O S T S

The Young Architects Forum and Women in Design are excited to announce our 2026 happy hour theme, INTERACTION. If your firm has been using data to influence your designs, has a focus on sustainability metrics, or use evidence based design in your work then you are an ideal candidate to host an event in the 2026 AIA Seattle Happy Hour Series! We are excited to highlight firms in the Seattle area that are innovative in their data collection and their use of data to produce harmonious design solutions.

Hosts are responsible for providing a space for the event, offering light food and drinks, and designating staff to participate in a discussion on the aforementioned series theme. We encourage firms to co-host with one another to display how different members of the design teams use data in their own ways, but co-hosting is not a requirement. In alignment with AIA Seattle's mission, vision, and values, the event space must be ADA accessible and offer accessible restrooms.

If you're interested in hosting an event in 2026, please complete and return this form and the survey below to YoungArchitectsForum@aiaseattle.org by 02/27/26. A planning committee will then convene and all respondents will be contacted by 03/06/26.

Host   *Optional Co-host*
